Export Dutch Water Sector Increase 15/04/2009

The Dutch water companies exported EUR6.5 billion in 2008, an increase of 6.8% compared to 2007. The world trade growth in this sector however decreased from 6.7% to 0.9%. These figures are published by EIM on request of the Netherlands Water Partnership.

Is Water a Human Right?

During the World Water Forum in Istanbul, there were protests about the availability of water for every-one. The question is indeed: is water a right or a commodity, or a trade product? John Sauer thinks of it.
